

TRAY- AND BOXWASHINGMACHINE TYPE TW

The tray- and boxwashingmachine is an universal washing-machine for almost all sizes of trays and boxes.

OPERATION:

Trays and boxes are cleaned in a horizontal position. The trays/boxes are transported compiled by means of cords. These cords are both available on the under as well as the upperside. By this construction the trays or boxes are pressed during the cleaning between cords. The trays or boxes are intensively cleaned by means of two rotating sprayholders. By means of this method the trays or boxes are constantly cleaned.

THE MACHINE HAS FOLLOWING DISTINGUISHING FEATURES:

- High-quality construction and maintenance free
- Whole frame and supply of stainless-steel
- Height adjustable frame, for an optimal working position
- High capacity, 18 meters per/min.
- Simple to adjust in height from the above cleaning and cords part, by means of a spindle with lever-mechanism
- Simple to adjust to another tray- or boxsize
- Simple to operate by means of a connection on a switch-box
- Built in accordance with the CE norm
- Malfunction alarmsystem and emergencystop

OPTIONS:

- Adjustable speed is possible
- Disinfecting bin with rollerconveyor and a plunge-pump

TECHNICAL DATA:

Length	: 3.000 mm.
Width	: 1.000 mm.
Height	: 1.450 mm.
Material	: stainless steel
Capacity	: max. 18 meter/min.
Maximum work-width	: 600 mm.
Maximum pressure	: 150 bar
Weight	: ± 350 kg.
Power supply	: 3ph./400V.50Hz + N + \downarrow
